PerryISP.net Outlook Express Setup Guide

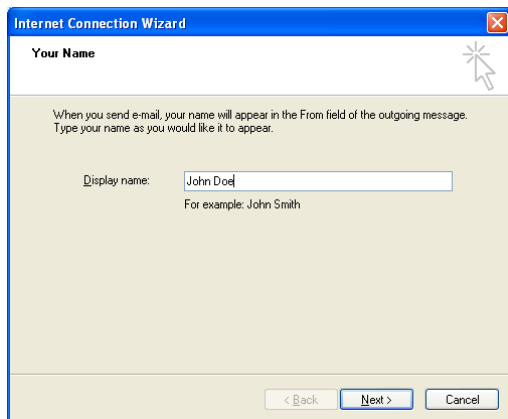

1. Open Outlook Express and click on Tools and Accounts

2. Click Add and then click Mail

3. Type in your name as you would like for it to appear on outgoing messages. example. First Last

- Click Next and select POP3 where it says “My incoming mail server is a ...”
- Type the following information into the next two boxes where it says:
“Incoming mail (POP3, IMAP or HTTP) server”:
mail.perryisp.net
“Outgoing mail (SMTP) server”:
mail.perryisp.net

The screenshot shows the 'E-mail Server Names' dialog box in the Internet Connection Wizard. It has a title bar with 'Internet Connection Wizard' and a close button. The main area contains the text: 'My incoming mail server is a POP3 server.' Below this, there are two input fields. The first is labeled 'Incoming mail (POP3, IMAP or HTTP) server:' and contains 'mail.perryisp.net'. The second is labeled 'Outgoing mail (SMTP) server:' and also contains 'mail.perryisp.net'. At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.

- Click Next and type in your email address. Example: [johndoe@perryisp.net](mailto: johndoe@perryisp.net)

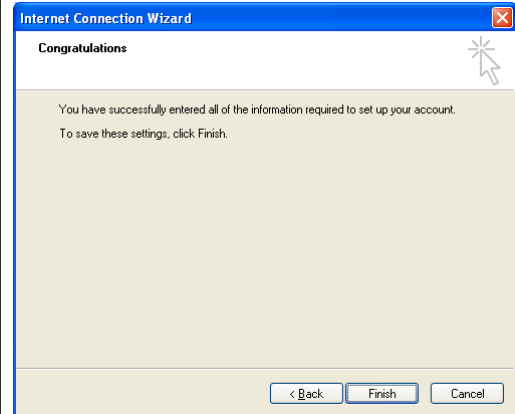

The screenshot shows the 'Internet E-mail Address' dialog box in the Internet Connection Wizard. It has a title bar with 'Internet Connection Wizard' and a close button. The main area contains the text: 'Your e-mail address is the address other people use to send e-mail messages to you.' Below this, there is an input field labeled 'E-mail address:' containing 'johndoe@perryisp.net'. A smaller text below the field says 'For example: someone@microsoft.com'. At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.

- Click Next and type in your Logon Information: (your email address is the account name)

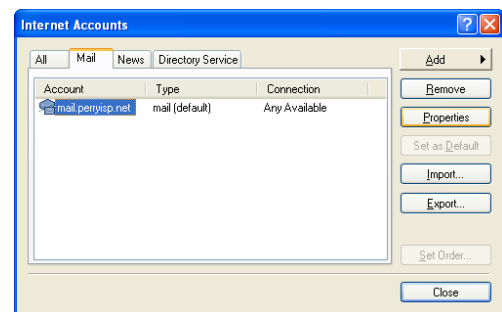

“Account name:” [johndoe@perryisp.net](mailto: johndoe@perryisp.net)
“Password:” yourPassword1234goesHere

The screenshot shows the 'Internet Mail Logon' dialog box in the Internet Connection Wizard. It has a title bar with 'Internet Connection Wizard' and a close button. The main area contains the text: 'Type the account name and password your Internet service provider has given you.' Below this, there are two input fields. The first is labeled 'Account name:' and contains 'johndoe@perryisp.net'. The second is labeled 'Password:' and contains a series of dots. Below the password field, there is a checked checkbox labeled 'Remember password'. At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.

8. Click Finish

9. Select your new mail account from the Internet Accounts box and click Properties.

10. Select the Servers tab at the top of the Properties window and then select the checkbox at the bottom labeled: "My server requires authentication".

11. Click Apply and OK.

12. Click Close on the Internet Accounts window and you're ready to start using your new email account.
